Selected projects

Conductor

Backend, security, multi-tenancy, Kafka, Docker, PostgreSQL and MongoDB.

Social Network - Final project 10/10

REST API with Java, Spring Boot, Spring Security, JWT, persistence and permissions.

Rally Performance Analyzer

Python, FastAPI, responsible scraping, data processing and visualisation.

Profile

Higher Vocational Technician in Multiplatform Application Development with experience on a cloud-native enterprise platform. Focused on secure APIs, backend architecture, data, microservices and access control.

Technical skills

Core stack

Java, Spring Boot, Python, FastAPI

Backend and security

REST APIs, Spring Security, JWT/RS256, RBAC, Pydantic, BFF, microservices

Data and infrastructure

PostgreSQL, MySQL, MongoDB, Kafka, Docker, Linux, Git, AWS

Complementary

React, JavaScript, HTML, CSS, ECharts, Ollama, AI APIs

Education

Higher Technician in Multiplatform Application Development

thePower · Sep 2024 - Jun 2026

Degree in Marketing and Market Research

University of Granada · 2015 - 2019

AWS Academy - Cloud Foundations

Feb 2026

Java and Spring Boot training

Nicolás Salgado · Jun 2025 - Oct 2025

Technical backend training

Brian Moore · Java, SQL, Python and FastAPI

Languages

- Spanish - native
- Italian - bilingual/native
- English - Cambridge B2
- French - basic

Java · Spring Boot · Python · FastAPI
